

# These Guys Immediately Saved \$164k

in annual health insurance premiums

LevelFunded Health immediately saved a manufacturing company with 88 employees over \$164,000 in annual health insurance premiums by moving them from Blue Cross Blue Shield of Michigan, into an A-rated, Fortune 100, level-funded carrier that runs on a national United Healthcare PPO network.

Premiums were dramatically reduced through the use of medical underwriting available under ERISA law, while employee benefits were significantly improved. Ultimately, this program and form of underwriting not only reduced expenses for the business, but also helped them retain and hire their best employees.

Potential refund of up to **\$189k** for unused claims set-asides
