

# STOCK TRANSFER MANAGEMENT POWERED BY YOU.

## PRODUCT OVERVIEW

**Issue shares and documents electronically**  
Solo handles virtually all your stock transfer and management needs.

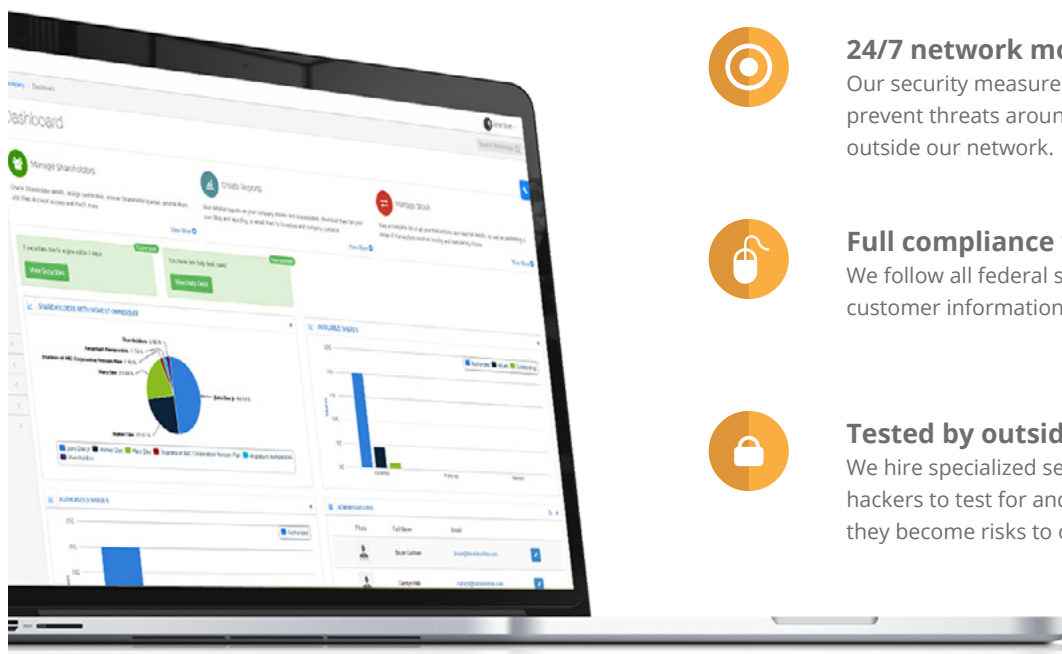

**Create detailed reports**  
Solo can create ownership, percent ownership, and other shareholder reports with just a few clicks.

**Communicate with shareholders**  
Send shares, documents, and company news to shareholders. Shareholders can create free accounts to view ownership and access documents.

**Manage shares from one dashboard**  
Solo is an all-in-one tool. Unlike other software that can only handle simple tasks, Solo gives you the power of a full-service stock transfer agent.

**Access Solo from anywhere**  
Solo is a web-based software you can access from anywhere with an internet connection. There's no need to download or update software.

**Live, U.S.-based customer support**  
Our customer support team is based in our Portland, Oregon company headquarters where the Solo software is developed and updated.

### 24/7 network monitoring

Our security measures and systems detect and prevent threats around the clock from both inside and outside our network.

### Full compliance with government regulations

We follow all federal standards for safeguarding customer information.

### Tested by outside security experts

We hire specialized security engineers who act like hackers to test for and eliminate vulnerabilities before they become risks to our customers.
