TRACKING & MONITORING

"Always on Guard"

S400 SATELLITE

Satellite Tracking & Monitoring Unit

Designed for tracking vessels operated in and off shore

- Easy installation with multiple sensor capabilities
- Automatic tracking
- Alert messages sent via SMS text and email
- Tracks upon geofence and compass breach
- Programmable geofence and compass thresholds
- Operates with 12 to 24 volt power source
- Optional rechargeable lithium back-up battery
- Low voltage alert
- GPS/GSM and satellite antennas included
- Two-way communication

SC500 HYBRID

Cellular/Satellite Tracking Unit

Designed for tracking vessels operated in and off shore

- Easy installation with multiple sensor capabilities
- Automatic tracking
- Alert messages sent via SMS text and email
- Tracks upon geofence and/or speed threshold breach
- Programmable geofence and speed thresholds
- Operates with 12 to 24 volt power source
- Rechargeable lithium back-up battery included
- Low voltage alert
- GPS/GSM and satellite antennas included
- Two-way communication

S300 SMARTONE

Satellite Ready Tracking Unit

Designed for vessel tracking and reporting unauthorized movement.

- No installation required
- Automatic tracking
- Alert upon geofence breach
- Programmable geofence threshold
- Operates with 4x "AA" lithium batteries
- Low battery alert
- Internal GPS and satellite antennas
- One-way communication

C310 CELLULAR

Cellular Communication Tracking Unit

Designed for tracking vessels operated within cellular signal reach

- Easy installation, mountable anywhere
- Automatic tracking
- Tracks upon geofence and/or speed threshold breach
- Programmable geofence and speed thresholds
- Operates with 12 to 24 volt power source
- Rechargeable lithium back-up battery included
- Low voltage alert
- Internal GPS and GSM antennas
- One-way communication
