Vocantas Welcomes Chief Technology Officer

Industry Veteran, Andrew Kozminski, Joins Vocantas

Ottawa, Ontario – August 25, 2016 – Vocantas, developer of complex multi-modal communication solutions that integrate with enterprise wide mission critical systems, today welcomed Andrew Kozminski in the new role of Chief Technology Officer. The exponential growth the company has seen with increased demand for its automated staff scheduling solutions compelled the organization to add this critical role.

Andrew will play a key role in shaping Vocantas' technology strategy as the company embarks on its next phase of growth and leadership in healthcare, higher education, utilities and manufacturing. Andrew will oversee Vocantas' robust network infrastructure, software development, time to market through development of right-first-time products for its customers, and ongoing support for the company's complex systems. Andrew has demonstrated through proven success in managing cross-functional and multi-site teams at Fortune 100 organizations that he is the ideal candidate for this role.

Andrew brings more than 25 years of deep technology expertise in both development and management roles, from organizations such as Nortel, QNX/BlackBerry, Protus IP Solutions, Pronexus, and Mitel. Andrew holds a Master of Electrical Engineering from the Technical University of Warsaw and has a broad spectrum of experience across application development and enterprise solution delivery for both commercial and consumer solutions in telecom and software.

"Andrew is a technology leader, with vast experience in the deployment of complex software solutions. The growing demand for Vocantas' products and services has created a need for the added proficiency of an industry expert to oversee our mission critical development and deployment. Andrew will lead our Development, Quality Assurance and Support teams into the next wave of growth for Vocantas. I know that our customers will value the addition of Andrew to the Vocantas team," says Gary T. Hannah, CEO of Vocantas.

"I am excited to be a part of the next generation of Vocantas multi-modal communication applications. The growth in healthcare and manufacturing in conjunction with industry partners has the Vocantas technical teams running at full velocity. It is an awesome time to join the team at Vocantas with so many opportunities for deployment of their innovative communication systems in Canada and the US," said Andrew Kozminski, Chief Technology Officer, Vocantas.
