

Universal Screener Results: Rtl Recommendations

Grade 3 Math Screener Form A

Report on: Selected Students

Number of Students with Results: 3

Average Test Time per Student: 00:08:38

Testing Window: 07/01/2017 - 11/29/2017

Target Score: Fall

Overall Universal Screener Assessment Results - Mathematics

Overall Universal Screener Results by Key Strands - Mathematics

Measurement	Operations	Statistics and Probability	
Lincoln, A. Saban, N.	Lincoln, A. Saban, N.	Lincoln, A. Saban, N.	RECOMMEND FURTHER EVALUATION

Purpose: Analyzes student results for grade-level readiness. Identify students requiring further evaluation by strand and potential intervention. Results are also used to determine movement across tiers in Rtl.

Next Steps: Target instruction and accelerate growth by strand for each student by generating and monitoring ILP for each student.

Disclaimer: These recommendations are based on student assessment results and represent a snapshot in time. They do not represent the totality of the student. As such, they should be used as only part of the Rtl assessment process.
