

## ASX ANNOUNCEMENT

23 December 2015

### DigitalX Company Update

DigitalX (“DCC” or “the Company”) would like to update the market of its ongoing activities in relation to finalising negotiations of a key agreement in relation to its AirPocket commercial rollout in the Latin American and the Caribbean (LAC) region.

The Company is in the final stages of formalising a key agreement with a strategic partner in the region and expects the deal to be completed early in the New Year.

The Company expects to announce full details of this strategic partnership shortly, upon completion of the agreement.

This first strategic agreement will provide AirPocket with the potential to reach tens of millions of users and provides a solid platform for expansion in the LAC region.

Furthermore, the Company has been actively pursuing partnerships in additional regions and has experienced significant interest to date from prospective partners. The Company is looking forward to updating the market on these developments in the coming months.

This progress follows the Company’s achievements to date, including the expanded public beta launch of AirPocket in the US and Dominican Republic. The results from this test will be announced to the market in the near future.
