Grand Theft Auto V or GTA 5 for shorter is a 3D sandbox video game developed by Rockstar North and published by Rockstar Games in 2013. For it's variety of gameplay, vast open world, fully 3D detailed graphics and interesting gameplay GTA V quickly become one of the hottest game of the decade. Following big success on PlayStation 3 and Xbox 360, GTA Five was released for PlayStation 4 and Xbox One in 2014 and one year later, for Windows PC.

For all of 2018, the stock market was not easy for investors. A larger number of stocks ended in the red, making it harder for investors to find outperformers. As the chart below shows, over three-fourths, or 76.9%, of all stocks in the Nifty 500 index fell in 2018.

In 2019, the markets have sprung a surprise. A wider array of companies is seeing their market capitalization increase. Better liquidity, lower valuations, and a better-than-expected earnings season are driving larger participation. Nearly half, or 49.8%, of the stocks in the Nifty 500 index, have added to their market cap this year.

While nearly 209 stocks had fallen more than 25% last year, only 11 stocks have witnessed similar decline so far this year. We are only in March and it's early days, but 2019 sure feels much better than 2018 for investors.
